

# Create Chat Bot For An Application.

In the tbl\_application we need to update Telegram chatbot Token ID.

To create a Chat bot

Step 1 : Add the BotFather to your chat account

The screenshot shows a Telegram interface with a list of contacts on the left and a chat window on the right. The chat is with 'BotFather' (bot). The messages in the chat are as follows:

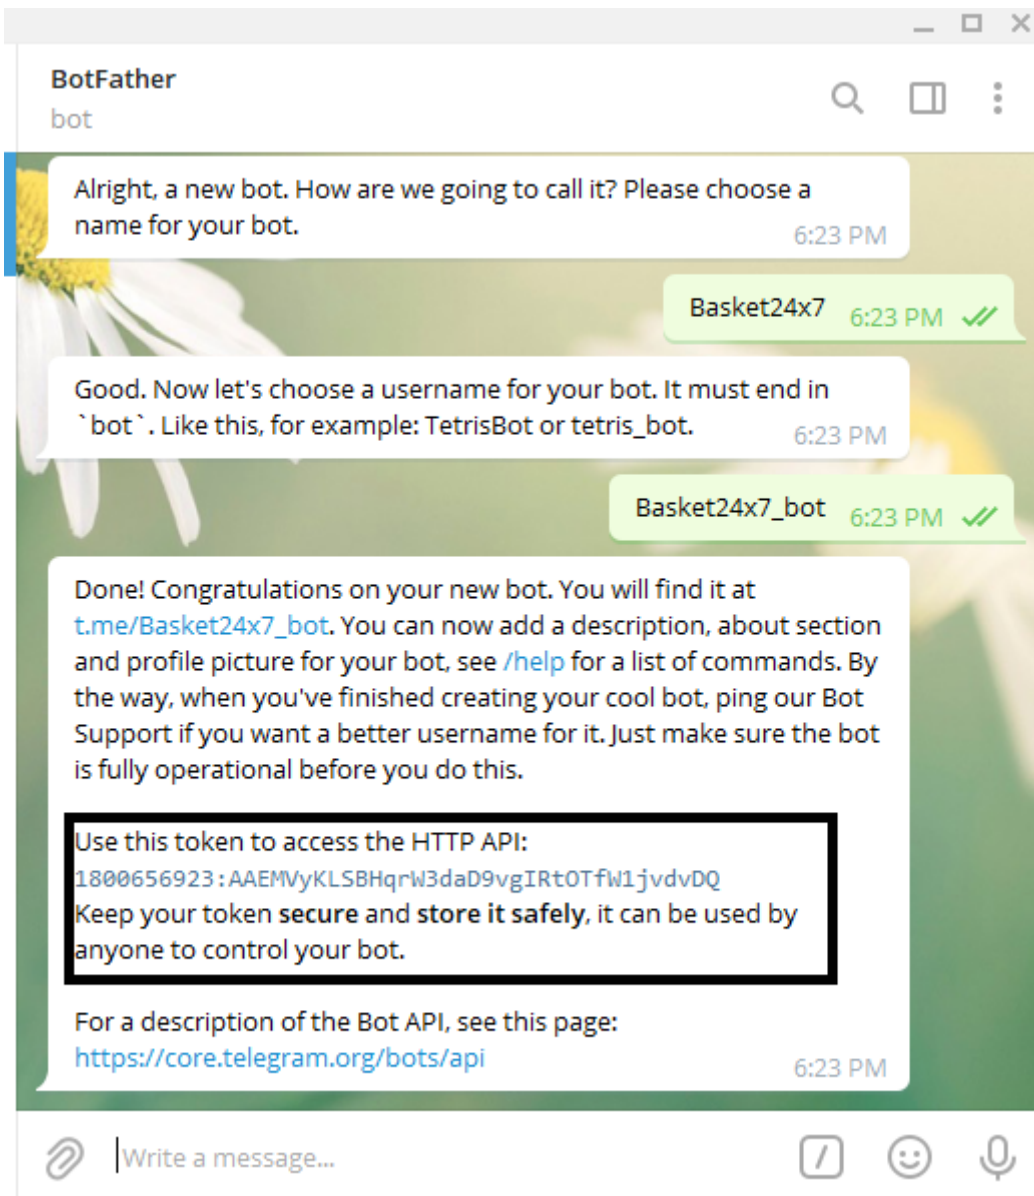

- BotFather: Alright, a new bot. How are we going to call it? Please choose a name for your bot. (6:23 PM)
- Basket24x7: (6:23 PM) ✓
- BotFather: Good. Now let's choose a username for your bot. It must end in `bot`. Like this, for example: TetrisBot or tetris\_bot. (6:23 PM)
- Basket24x7\_bot: (6:23 PM) ✓
- BotFather: Done! Congratulations on your new bot. You will find it at [t.me/Basket24x7\\_bot](https://t.me/Basket24x7_bot). You can now add a description, about section and profile picture for your bot, see [/help](#) for a list of commands. By the way, when you've finished creating your cool bot, ping our Bot Support if you want a better username for it. Just make sure the bot

Below the messages, there is a list of commands:

- /newbot** create a new bot **2**
- /mybots** edit your bots [beta]
- /mygames** edit your games [beta]
- /token** generate authorization token
- / revoke** revoke bot's access token

At the bottom of the chat input area, there is a text field containing a forward slash '/' and a blue arrow button. A red box highlights the text field, and the number '1' is next to it. A red box also highlights the '/newbot' command in the list above, with the number '2' next to it.

Follow the instruction to create a bot.

Use this token ID and update the tbl\_application table in SSO on the respective Telegramchatbot field.
